SUN BEAMS

By WALTER M. BARRETT

That Truckee is in for its busiest winter season has twice been indicated. First Winter Sports got away to a flying start with Ed Edmunds at the wheel as manager, and second thedirectors of the Truckee Motion picture association met, reorganized and launched a program that gives promise of being the best yet. Dan Smith agreed to be the southern contact man and we only hope that his new job brings himself and this community the success they deserve.

Then, too, the contract for Boca dam is expected to be awarded within the next few weeks and that project, also, will bring increased prosperity to Truckee. It's extremely hard for us to believe that Truckee will not be one of the busiest little cities in the west this winter.

We cannot help but wonder just what kind of answers are being received by Mrs Fay and Mr. Ciardelli, the volunteer "clean-up" committee, self-appointed to interview those who have failed to respond to letters asking that they stand their share of the cost of promoting and conducting winter sports this season. There can be no sensible negative reply and the thought strikes us that the excuses will be varied and in many cases amusing. Only those who will be directly benefited are being asked to participate in the cost and the committee is asking only the slow-payers to help themselves. Mrs. Fay and Ciardelli should be warmly praised for their work.

We have inquired, since coming to Truckee to make our home, from what we believe to be reliable sources, and have not as yet uncovered one organization solely for the young people of the vicinity.

There are organized groups in other communities that are thriving as a matter of course and in so doing are helping these young folks, in their formative years, to be better citizens of the future as well as giving them useful information and healthful pleasure at the present time.

A community sponsorship would be splendid if there is no individual lodge, club or other organization that wants to do it alone.

Girls, although they are at home more than their brothers, also enjoy meeting with their kind, held together by a common interest.

Boys are naturally proud, by heritage, to belong to a club or organization, individual or international in scope and under the proper guidance of a public spirited gronp of citizens, will, with a small exception, do their best to uphold the ideals set before them.

MASONS PLANNING TO HONOR HOBART MILLS MEMBERS

Hobart Mills Night will be featured at a special meeting of the Truckee Lodge No. 200, F. & A. Masons, Saturday, November 14, when the members of that district will be honored before their departure for other places, following the closing of the mills.

A third degree team of nine members, who are all past masters of the order from Indian Rock Lodge in Berkeley, grand officers and inspectors of the same place, as well as Tom Harris of Grass Valley, inspector of the 13th district, will join the local members and confer the degree upon De Mar Brock Dundas af Hobart Mills. The ceremonies will take place following a banquet to be held at the California restaurant.

On Tuesday evening Past Master Roy Feathers conferred the second degree on Dundas. Members from out of town were in atendance at the ceremonies as well as a large local representation.

HIGH WINDS AT LAKE TAHOE DO HEAVY DAMAGE

Damage amounting to several hundred dollars was caused by an unusually heavy wind at Lake Tahoe last week end and Charles Kendrick,resident of the district for 47 years said that the waves were the highest he had seen in all the time he has been living there.

Planking was torn from a pier at J. B. Obexer's station at Homewood, dashed into a boat, sinking it. The loss of the propeller and other damages were estimated at $300.

The scout boat owned by Chris Nielson, Tahoe marine inspector was wrecked and cost more than $100 to repair, while the pier belonging to Kendrick was also damaged.

BORDER PATROL WILL BE ISSUE IN LEGISLATURE

Rumors Say Police from L.A. May Again Form Local Patrol

SUGGESTIONS OFFERED

Enlarging Highway Patrol to Be Studied at the Next Session

By GEORGE E. HELMER
(Special to The Sierra Sun)

SACRAMENTO, OCT. 22-(UP)-Proposals to establish border patrols to prevent indigent itinerants from flooding California this winter will reappear within the next three months as preparations are made for the 52nd legislative session, convening in January.

Already, reports have been circulated that the Los Angeles police department will again establish guards at the most popular "ports of entry" to look for the knights of the road and others who appear to be drifting into California with the idea of sliding through the winter months by panhandling,doing odd jobs, or applying for relief.

Helmer

The relief program in California is bad enough, many officials figure, without the added burden of caring for destitute persons from other states. California probably will have enough money to handle its own relief demands this winter, but it cannot afford to feed transients without direct aid from the federal government.

The only way to stop transients from flocking into the state would be to erect barriers and turn back anyone who was not a tourist or who did not have sufficient means of support or a job awaiting him.

Suggest Passports

The 1935 legislature turned down a bill which would hav e established state police guards at the borders. Opponents suggested instead the erection of a high fence and guard towers; the issuance of passports, or possibly the wholesale massacre of of persons unable to support themselves. The bill went down under an avalanche of ridicule, but it will be revived when the next legislature goes to work, according to advance information.

Perhaps it will take a different form. The state department of public health may urged to set up a barrie by turning back anyone with a contagious disease, even a cold. Or the original bill may be brought up again. It has been studied carefully and some officials say it is constitutional because although residents of the United States are free to travel about the country the individual states may treat them as they please after they have crossed the border.

Establishment of a state police force, by conversion of the highway patrol into a more powerful organization, also will furnish grounds for another legislative fight, observers believe. This was defeated in 1935 with labor the major opponent.

NATIVE SONS HOLD NEVADA CITY MEET

Grand Governor R. L. P. Bigelow presided at the annual convention of the grand assembly of past presidents of the Native Sons of the Golden West, held in Nevada City last Saturday. This marked the sixteenth session of the body and 50 delegates from all parts of the state attended.

Bigelow, during the election of the officers for the coming year was succeeded by A. N. Katzenstein of Sacramento and he became junior past governor general. The meeting was concluded with a banquet and Sacramento was selected as the conference city.

St. Mary's Grid Stars Will Eat Local Venison

Carl Bechdolt, manager of the inn at Tahoe City and widely known sportsman of this vicinity, this week expressed a 190-pound muletail deer to Coach Slip Madigan at St. Mary's University to provide a buck barbecue for the varsity team there.

Several weeks ago, Bechdolt promised that if St. Mary's defeated the California Bears he would see to it that the team had a venison feed.

St. Mary's won the game and the Tahoe man started his hunt. After several days during which time he was unsuccessful in landing a deer, he spent the last day of the season, and incidentally his fiftieth birthday, scouring the country back of Loyalton and managed, as the day drew to a close to bag the big muletail.

Friday he dressed the animal and dispatched it to the university. His son, Carl, Jr., is a freshman at the university.

BECHDOLT BUYS HIRSCHDALE; TO START BUILDING

Tahoe City Man to Improve Townsite on Truckee River

Plans for the improvement of Hirschdale, a townsite on the Truckee river, eight miles east of here, are being made by Carl Bechdolt, Tahoe City hotel man, who announced the purchase of the property this week.

The purchase included 32 acres with 28 lots unsold. There is a 600-foot frontage on both sides of the highway and being located only a short distance from the proposed Boca dam site, it is expected development of the property will be rapid.

Bechdolt said he will retain Joe Hirsch as manager of the property and will have Joe Geiger of Reno as his assistant.

The land was purchased through the attorney for the German consul at San Francisco, who had charge of the disposition of the property.

Several new cabins and other improvements are planned by the new owner.

PARENT TEACHERS PLAN BUSY YEAR

Membership Drive Continues Until November 1 In Truckee

Mrs. Floyd Thomas, chairman of the membership drive for the local Parent Teachers association, reports that much progress is being made toward the increase in membership. The drive will continue until Novber 1, it was announced.

The program for the 1936-1937 season was announced as follows:

September — Reception for the teachers; The meaning of the report cards; The P. T. A.

October — The parental influence; Relation of child and parent.

November — Character education; mental and social.

December — Moral and spiritual training.

January — National and international relations; legislation.

February — Founders' day program. (Topic to be supplied).

March — Thrift.

April — Safety; Juvenile protection.

May — Recreation and creation; (music art motion pictures, library service); observation of National Music Week.

Mrs. Talcott Here——

Mrs. H. I. Talcott who was a former resident of Truckee, now living in Reno, was a visitor in town this week.

EDWARDS SEATED AS COMMANDER OF TRUCKEE POST

Speakers Stress Need For Organization For Boys Here

OFFICERS INSTALLED

Membership Drive Planned As Legion Swings Into Action

Truckee is endowed with one of the finest groups of boys it is possible to assemble, but nothing is being done to provide them with any kind of recreation of an organized nature.

This, in substance, was the keynote of the brief address by District Commander Roy Gerhis of Rio Linda who installed the new officers of the local American Legion post Tuesday evening at Masonic hall.

Gerhis and other visiting officers urged the post to get behind a boys' organization of some nature, either Boy Scouts, Junior baseball, Sons of the Legion, or some kindred group, so that the work of the Legion can be perpetuated.

Harry Edwards was installed as commander at the session and will succeed Frank Kinne, the new finance officer. Hugh McColl was installed as adjutant, but tendered his resignation as he has accepted a post with the state motor vehicle department and will reside in Sacramento. His successor will be named at the next meeting, Wednesday, November 4. McColl has been one of the leaders in Legion activities here and his departure is regretted.

Plans for a membership drive will be made soon, it was announced. A Dutch lunch concluded the evening. Approximately 30 attended.

DEMOCRATS PLANNING POLITICAL GATHERING

Five thousand staunch democrats are planning a torch parade and rally at Grass Valley and Nevada City October 30, it has been announced by T. O'Hanrahan, chairman of the county central committee. Gus Helms of Sacramento and John B. Lewis of San Francisco will speak. A dance will be one of the features of the affair which is expected to take on all the robust enthusiam evidenced in the gay ninties.

Local Representative Attends Star Session

Mrs. Jennie Canady, outgoing matron of the Truckee chapter, is the official representative from Truckee at the 63rd annual session of the grand chapter of the Order of Eastern Star being held in Sacramento. The convention opened Monday and will close tomorrow.

TWO DRIVERS CITED BY PATROLMAN HERE

Two motorists are slated to appear before Justice of the Peace C. E. Smith tomorrow on charges of violating state traffic laws.

W. H. Sanders, Soda Springs, was tagged for reckless driving after his car is alleged to have forced two other machines off the highway last Sunday.

Everett E. Olson, San Francisco truck driver, was cited for violation of the maximum length law, after he was apprehended towing a big truck behind his own truck and trailer. The length of the combined load was 92 feet while the law permits only 60 feet.

Both drivers were arrested by C. E. McKeen, state traffic officer.

Going to Los Angeles——

Mrs. George Walker who has been in Truckee during the summer, and her sister, Mrs. Smith, who has been her guest, will return to their homes in Los Angeles Monday. Mr. Walker is expected to arrive from the southern city and after a brief stay here the trio will motor south for the winter.

HEADS ASSOCIATION

C. Edmunds, who this week was reelected as chairman of the board of directors of The Truckee Motion Picture association.

PIONEER TRUCKEE MATRON SUCCUMBS AT CAPITAL HOME

Local Residents Learn of Sudden Death of Mrs. Mae Prouty

Local friends of Mrs. Mae Prouty were shocked to hear of her sudden and unexpected death in Sacramento early this week. To all appearances, she had been in good health, but succumbed to a heart attack during the night. Her son, George, who had just the day before returned after a visit with relatives in the east, discovered that his mother had expired in her sleep.

Mrs. Prouty had been engaged in work at the motor vehicle department office. She was only recently a guest at the William Englehart home here.

The deceased was born and lived in Truckee for many years, endearing herself to a large number of friends.

The last rites were held at the Catholic Cathedral in Sacramento on Wednesday morning at 9 o'clock and interment was in Oakland where her husband, the late Walter Prouty, one time an engineer for the Southern Pacific company here, was buried five years ago.

Two sons, Selton and George Prouty, both of Sacramento, survive.

ICE PALACE MAY BE PREPARED FOR RINK THIS SEASON

Discussion Features Meeting Of Truckee Chamber Of Commerce

Virtual agreement to concentrate on preparing the partially completed ice palace so that it can be used in teh coming season, was reached at this week's meeting of the Truckee Chamber of Commerce.

It was pointed out by Manager C. Edmunds that while there is insufficient money available to complete the project any sum expended will be for improvement of a permanent nature. On the other hand expenditure of the same amount on the pond at the top of the hill could bring only temporary results.

Ice skating, it was agreed, will be the chief attraction at winter sports resorts this year and Truckee will be in a position to compete with the other resorts on the state.

The meeting was presided over by Charles White, the president.

The next meeting will be at the St. Louis cafe, it was announced.

Attend Funeral——

Mr. and Mrs. William Englehart and Mrs. Dan D. Smith motored to Sacramento where they attended the funeral services for Mrs. Mae Prouty this week. They returned home late Wednesday.

MOTION PICTURE ASSOCIATION IN REORGANIZATION

Dan Smith Selected as Local Contact Representative In Los Angeles

FIRST FILM IS PLANNED

Edmunds again Selected to be Head of Truckee Group

Selection of Dan D. Smith of this city as the southern California represenative or contact man, the re-election of all the former officers and a general discussion of proposed activities featured Monday night's meeting of the board of directors of the Truckee Motion Picture association.

Smith was chosen to replace K. L. Kielhofer, who successfully represented the local interests in Los Angeles last year, but who has accepted a position as assistant director for the Twentieth Century company and will not be available this season. Kielhofer attended the meeting Monday and said he would lend all possible assistance to his successor.

Smith accompanied Kielhofer to Los Angeles Tuesday to make his initial contacts with the producers.

C. Edmunds, chairman of the local board and one of those instrumental in organizing the association, was renamed to the position he holds, despite his protest that the office be a rotating one. Mrs. E. C. Bavier was named to succeed herself as secretary of the group and C. W. White is to retain the office of treasurer.

It was decided to operate the association on the same basis as last season, each participating firm and concern paying into the organization a percentage of the earnings during the picture filming season.

Kielhofer reported that he was satisfied the firm he represents will have a company of between 40 and 50 here in a short time to start the filming of the first of 63 major productions planned for the year. The story is entitled, "Fifty Roads to Town," and is scheduled to star Robert Armstrong.

All of the directors of the association were present at the session on Monday and indications are that the season this year will surpass all the past records from a beneficial standpoint.

The directors and the departments they represent are as follows: William Englehart, meals; T. O'Hanrahan, hotels; James McIvers, Transportation; Frank Gaiennie, labor; Charles Carrau, materials; Arthur Leitch, locations; Walter Barrett, publicity. Other directors are Mrs. Bavier, Edmunds and White.

FRANZINI RENEWS OLD ACQUANTANCES AT VIRGINIA CITY

P. Franzini, with his son-in-law and daughter, Mr. and Mrs. William Englehart, enjoyed a visit in Virginia City last Sunday.

Franzini, an early settler of the pioneer Nevada town, was able to take his relatives through the mines he had worked in half a century ago and the trio went on a complete sightseeing tour of the former home of Mark Twain, with the elder man reminising of places that had been changed in recent years and events which are now part of the historical past.

Before leaving, there had gathered a large circle of friends of years standing who were glad to renew their acquaintance with the former resident.

Truckee Couple Observe Date of Wedding Here

Friends of M. and Mrs. Benjamin Tonini are extending felicitations to day due to the fact that the widely known local couple celebrated their 28th wedding anniversary yesterday.

The event was observed quietly by members of the family. The Sun joins in extending hearty congratulations.

Few organizations deal more faithfully with their aims than the Parent Teachers association, and while it is not an order to flaunt its accomplishments before the public all thetime, it is one of the most influential groups in developing worthwhile citizens. Its purposes are many-fold. It endevors to form closer cooperation between the school, the parent and the child, at all times attempting to solve problems of mutual concern to all three; it is instrumental in securing better conditions in the school and the home; its members are working sincerely at all time to foster a spirit of loyalty to country, community and home.

The Parent Teachers association is more than worthy of your support and right at this time when the Truckee unit is endeavoring to build up a stronger membership in this community, you should feel it not only a pleasure but a duty as well to add your membership. The dues are very small in comparison to the great amount of good done with your assistance and this work daily reflects itself on your business , home and the community. Join the P.-T. A. now.

AS OTHERS SEE US

The importance of winter sports, which we here are apt to lose sight of, is stresed in the following editorial taken from The Sacramento Bee:

The California Ski association, representing Winter sport clubs throughout Superior California, will meet in Sacramento October 24th to arrange its program for the coming season.

This program will include at least one statewide tournament besides several meets of local character. It is one deserving the support of every community in this part of California.

California is known for her mild and equable climate, her miles and miles of beaches and her facilities for Summer vacations in mountain resorts.

Too little attempt, however, has been made to stress the incomparable opportunities offered for Winter sports.

Within a hundred miles of Sacramento, easily reached by paved roads that are kept open the year round, are spots not equalled even in the Swiss Alps for such diversions as ice skating, tobogganing, skiing, sleigh riding, etc.

There is a zest and snap in such sport not found in other. This explains why Winter activities are winning an increasing number of devotees in Superior California.

Let every booster for this part of the state talk Winter sports during the next few months. They have a big future.

BUSINESS IS GOOD

Whether or not we are willing to admit it, business in the entire country is on the up trend. We are not going to try to place the credit for the condition. It may be the administration, itmay result from general world conditions or it may be the outcome of the everlasting cycle of good replacing bad and bad, in turn, replacing good, but the fact remains that business here and elsewhere is showing a well marked improvement. A glimpse into any of our stores, restaurants and other business estblishments, almost any hour of the day is verification of the statement.

A DELUGE OF TOURISTS

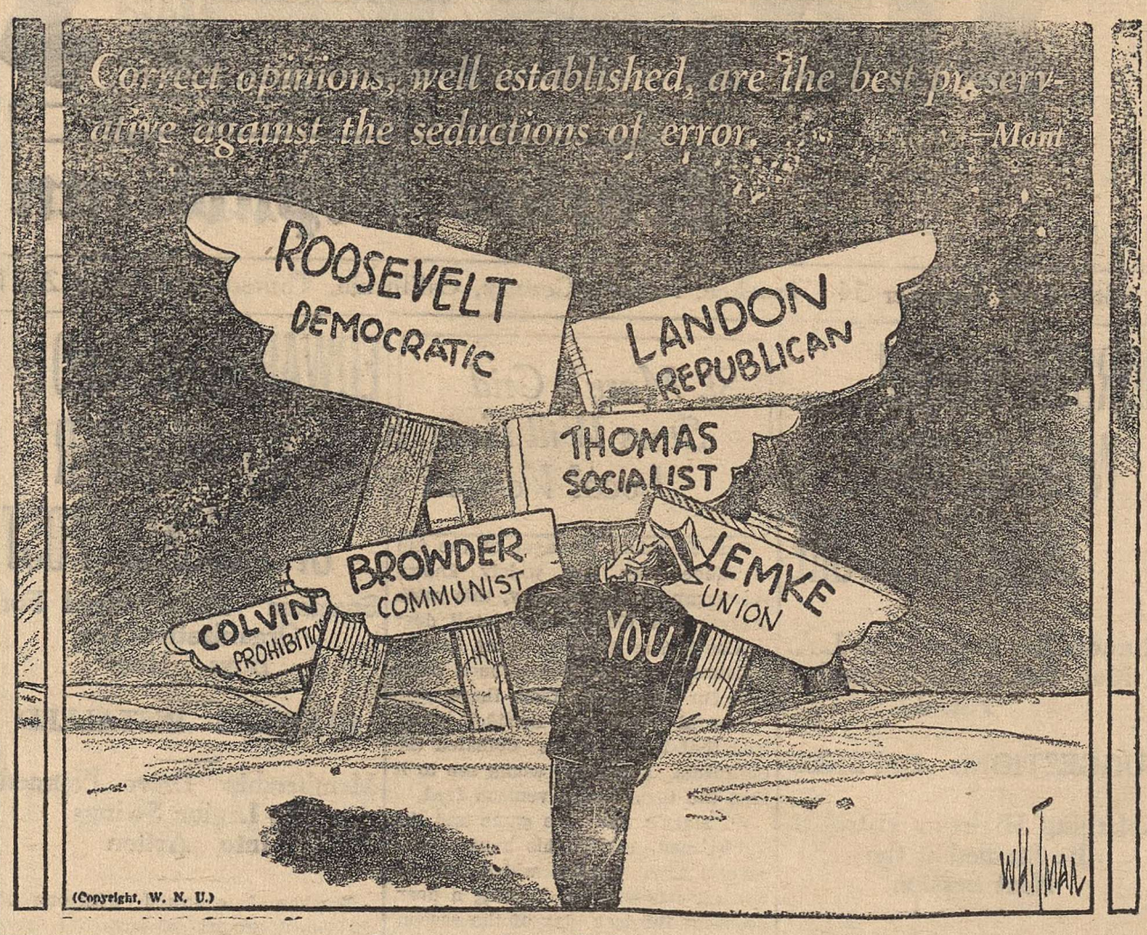

How the tourists have poured into California this year! By auto, by train and steamship, by motor coach and stage line and airplane, they've flocked across our border in numbers more than 30 per cent greater than last year. Up to now 800,000 out-of-state autos have entered, and transport companies report volume gains from 28 to 68 per cent. It looks as though those public-spirited groups who encourage the influx of this lucrative tourist business are doing right well this year. Truckee has benefitted greatly from this increased tourist trade and is preparing for a bigger and better season next year. And the nice part about the Truckee-Lake Tahoe districts is that the tourist always gets his moneys worth and leaves with a feeling of satisfaction. This area offers the best winter and summer and its up to the folks right here to keep the increase increasing.

YOUR $4,000,000,000 PAYROLL

Everyone is an employer. You and your neighbor contribute to the payroll of the largest group of workers in this country. That group consists of government employes. Three million of them are on the payrolls of federal, state and local governments -- payrolls that can only be met by taxes taken from your earnings. Their salaries total more than $4,000,000,000 a year. And their number is constantly growing. Some of these employes of yours are necessary to carry on the government functions.

Many of them are unnecessary. They are only a financial burdenbut they circumscribe your liberties. They work in a number of bureaus that have little to do with governing, but they are still on the payroll.

ELECTION DAY

Politically Speaking

By GEORGE E. HELMER
(United Press Staff Correspondent)

Sacramento, Oct.22.—(UP)—Widely circulated reports that there was great but unconfirmed evidence of graft in the disposition of equipment purchased for use by the State Emergency Relief Administration and the WPA drew the flat denials of Harold Pomeroy, SRA administrator, and Ray L. Riley, state controller, that that they knew of any such situation

Among the reports circulated at the capitol were that trucks worth $1500 were used as $200 down payments on passenger automobiles; that half a dozen or more airplane motors were lying around, unused; that hundreds of expensive typewriters, purshased at exhorbitant prices had disappeared; that desks wandered off; that individuals had helped themselves to an undetermined amount of supplies; that others had sold SRA property for personal gain; that there was no invoice, inventory or other record of the mass of equipment; that nobody knew where much of it was; that the state was worried because it might be held responsible for supplies about which it knew nothing.

Answering these, Pomeroy said he had heard nothing about the reputed truck sales; records showed one airplane on hand, and it has been used for class instruction; he had heard nothing to indicate typewriters desks or other equipment had been stolen; a complete inventory of all SRA equipment was taken and a record main tained constantly; there was nothing for the state to worry about because it had recorded all its equipment and the WPA was responsible for supplies loaned it by the SRA.

When millions monthly were poured into the state for distribution under the dole system, administration of relief was handled by the SERA. Then the WPA program was introduced as a substitute for direct relief, many supplies were turned over to the WPA, other were retained by the SRA and the surplus was given to the state for distribution among institutions and state departments.

Pomeroy said a close check was kept of all suplies retained by SRA and given to the state, and that a complete record was made of supplies loaned the WPA. He admitted the SRA did not know what had been done with the typewriters, desks, trucks and other equipment loaned the WPA, but pointed out that the WPA was responsible for them and the state had a record of them.

Charges that excessively high prices were paid for supplies were answered by Riley with the explanation that all supplies were purchased with federal money, and the federal government permitted no outright purchases during those direct relief days. Everything except commodities that were to be consumed shortly was rented and finally purchased through the payment of rent. Under that system, the final purchase prices were high.

However, allegations that "they're stealing us blind" (no one could explain exactly who "they" meant) drew the comment from Pomeroy that so far as he knew there was no evidence of thievery or mishandling of supplies in the SRA. As for the WPA, he did not know what was being done there because he was not authorized to speak for the WPA but he could see no reason for the state to worry since it has a record of supplies loaned and eventually an accounting will have to be made.

The California Toll Bridge Authority discovered that the establishment of a toll schedule for the new $66,000,000 San Francisco-Oakland Bay Bridge was not as simple as it had appeared originally.

Months of reseahch by bridge and traffic experts and conferences with the "bankers" handling the bridge bonds resulted in a proposed schedule, prepared by Chief Engineer Charles H. Purcell, represented by the engineers as being the lowest which could be adopted if the state desired to meet all bond obligations.

Lt. Gov. George J. Hatfield objected strenuously; insisted that a lower toll for pleasure cars would induce enough extra traffic to assure sufficient revenue.

Purcell recommended a flat rate of 65 cents per car, including the driver and four passengers. Hatfield urged a flat rate of 50 cents per car regardless of the number of passengers. Hatfield also insisted on a report showing the expected yearly fin ancial requirements.

There appeared to be little hope of settling the argument peacefully so the authority postponed action until October 22, with the knowledge that the schedule would have to be adopted very soon to permit the preparation of machines and tickets.

VALUABLE GOLD BAR PROPERTY OF STATE

SACRAMENTO, Oct. 22.—(UP)—Because its former owner failed to appear in court during the last five years and claim ownership, a gold bar worth $1316 has become the property of the state.

The bar, according to court records, first was taken to the American Smelting and Refining company in 1930 by a man giving the name of J. P. Lee. When he demanded immediate payment for the gold company officials became suspicious and asked him to return later for the money. He never returned.

An action for the possession of the precious metal was decided in favor of the state when no contest developed.

Tahoe . . . . Ramblings . . .

(By SWANEE)

Mr. and Mrs. A. Larson and family of Livingstone were week end guests of Harry Johanson at his home in Tahoe Park.

Or Saturday Constable Harry Johanson arrested Carl Griffith of Yuba City who was held in Tahoe's concrete bastile over night awaiting the arrival of Deputy Sheriff Carpenter of the valley city who arrived Sunday to claim his man. Griffith's divorced wife had him arrested for his failure to pay back alimony. Griffith has been ill and out of work for the past year, it was reported. He found work at Brockway only a week ago.

A mild chicken pox scare sent several pupils home from school last Thursday for unexpected vacations. The cases were very light and none of the children were reported seriously ill. Among the patients were Larry Darlin, Jimmie Swanson, Bud McCuen and Bobbie Adams.

Mr. A. M. Freyman of Tracy, an uncle of Carl Bechdolt, accompanied by his wife, is visiting at Tahoe.

The William Olivers family from Berkeley, accompanied by Mrs. Oliver's mother, Mrs. Etta Tyler, spent the week end at their home in Lake Forest. Mr. and Mrs. Robert Harkness and Arthur Delbo will occupy the Oliver home here during the winter months.

Mr. and Mrs. Roy Vance closed their Cottage grocery several weeks ago at Lake Forest, Mr. Vance going to Sacramento for the winter and Mrs. Vance visiting friends in San Francisco.

TAHOE SKI CLUB TO HOLD MEETING ON FRIDAY NIGHT

TAHOE CITY, Oct. 22.— The Lake Tahoe Ski club will hold its first meeting of the season at the Tahoe Womens' clubhouse Friday evening October 23, at 7:30 o'clock. President Ernest Pomin will preside. All members are urged to be present as three representatives will be selected to atend the annual California state meet to be held in Sacramento this Saturday afternoon. At that time all dates will be arranged and events assigned to the clubs.

All local residents interested in winter sport activities are invited to attend and join. With winter close at hand it is being hoped that Tahoe Club will be able to retain its fine reputation won through years of earnest effort, despite the absence this year of several of its ace performers who have left Tahoe for higher educations elsewhere.

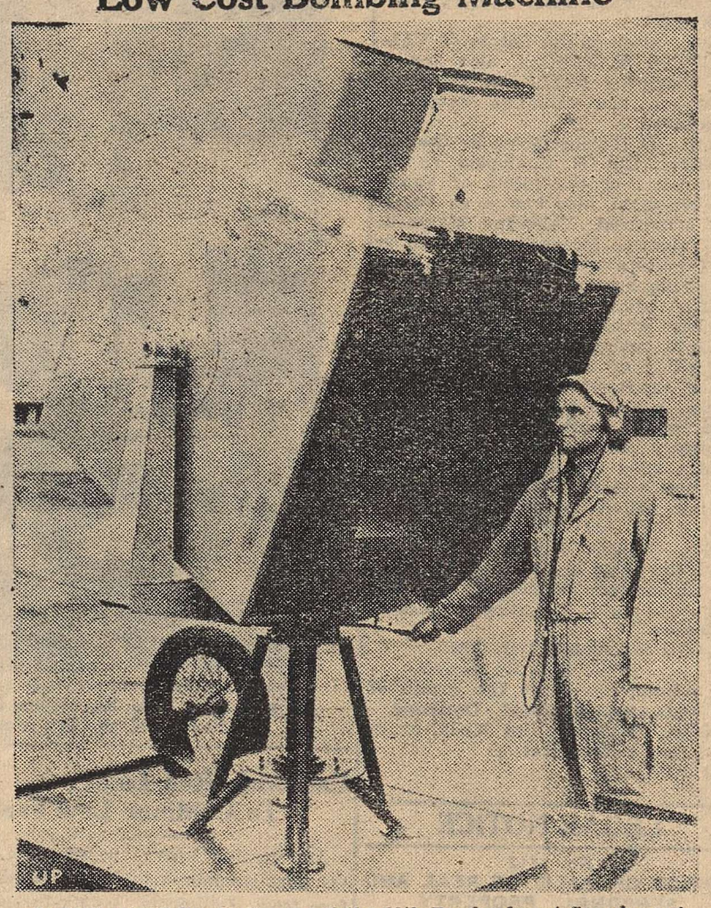

Mrs. Nina Rogers is spending a few days in town where she will close her houses before returning to San Francisco for the winter.

Mrs. Gerda Kvistberg entertained friends at her home in Tahoe Park Saturday evening.

Mr. and Mrs. John Maderos of Lake Forest were week end visitors in Sacramento wherethey visited with friends and relatives.

Mrs. Hulda Nielson returned to Truckee Thursday and was met at the train by Mrs. Alma Pierson at whose home she is visiting indefinitely.

Low Cost Bombing Machine

Staff Sergt. Walter E. Brewer of the 30th Bombardment Squadron at March Field, Riverside, Cal., inspects one of the new radio devices that lowers the cost of training Army Air Corps bombers to be accurate "shots." Instead of a bomb, the flyers release a radio impulse which is caught by the machine and notes a "hit" or "miss."

Mr. and Mrs. Edward Johnson are now residing on San Francisco boulevard in Sacramento.

Mr. and Mrs. Everett Prusso were hosts on Saturday evening at their Ward Creek home in observance of their 21st wedding anniversary. The guests who shared the memorable occasion were Mrs. Genda Kvistberg, Mrs. Gertrude Broach, Chris Nielson, Mr. and Mrs. Charles Swanson, Donnie, Ray and Sherwood Prusso and the honorees.

Mrs. Elizabeth Bavier of Truckee enjoyed a week end visit in San Francisco. She visited friends at the lake last Wednesday.

Among those who paid final visits to their Tahoe homes for the season last week end were Major and Mrs. Charles Kedrick and daughter from San Francisco and the Abe Leach family of Diablo.

Sixteen ladies attended the luncheon served by the Tahoe Womens' club at their clubhouse Thursday. Election of officers was postponed until the following Thursday meeting Bridge occupied the afternoon hours, prize winners beig Mrs. Marie Henry Mrs. N. R. Mayfield and Mrs. Joe Duffee.

Roderick Harkness, strapping big 19-year-old son of Robert Harkness, of Lake Forest Friday surprised his father with his first visit to Tahoe in two years, walking in on the family unexpectedly. The young man is engaged by a wholesale dental firm in Oakland.

The car of Victor Weidmar of the Brockway district which was seized on an attachment by Constable Harry Johanson last week will be sold at public auction at Henry's garage in Tahoe City October 27 to satisfy a claim against it.

Old Timers Fail For First Time In Bagging Deer In Tahoe Area

Deer season closed Thursday last with more than one old timer bitterly disappointed at not having brought in even one buck. According to popular belief there was such blasting away by hunters, who outnumbered the deer this year, especilly on the last Sunday of the season, that those crafty animals, exercising rare wisdom, hied themselves down close to the highways and hid there in the thickets until the season closed.

SPECTATORS WITNESS BATTLE OF BOAT ON STORMY LAKE TAHOE

SUNNYSIDE BEACH, Oct. 22.— Interested Spectators gathered Sunday to watch the "Quicha-Kidn", captained by Herbert Watson of Tahoe City maneuver about the heavy log cribbings built on Sunnyside Beach by Steve Craig of Auburn and his crew of workers for Robert Watson, who had contracted to build a pier and breakwater at the new Max C. Fleischmann home across the lake near Glenbrook.

Huge boulders had to be blasted out of the water in the harbor to put in the cribbing, the construction of which will require 10,000 feet of lumber at an estimated cost of $10,000.

Captain Watson's sturdy craft left Sunnyside Beach at 12:45 P. M. towing slowly its clumsy, heavy load. In the middle of the lake rough waters were encountered, rendering progress even more difficult. It took six hours and 45 minutes to make the crossing of nearly 14 miles to the Nevada shore. Two more trips must be made before the task is complete.

14 Million Gallons of Wine Being Made in Lodi Area

LODI, Oct. 22. —(UP)— The 1936 vintage season recently started here, is expected to produce more than one-fourth of the nation's annual wine output, winery officials said.

With 15 wine producing plants at work full time, a total of 201,000 tons of grapes will be crushed and processed, it was estimated. Wine production for the season was predicted at 14,000,000 gallons.

SACRAMENTO, Oct. 22.—(UP)— California's field crops, benefited by an ideal harvest season, turned out better than anticipated earlier in the season, the federal-state crop reporting service said in its October summary.

INCREASED RETAIL SALES IN CALIFORNIA REPORTED BY FEDERAL COMMERCE

SACRAMENTO, Oct. 22.— (UP)— Retaail sales in California increased 37 per cent between 1933 and 1935, to bring the total for last year up to $2,312,,183,000 in 100,911 stores, the federal department of commerce reported to the state.

"The 37 per cent increase is in contrast to a sharp decrease between 1929 and 1933, which in California amounted to 47 per cent of the 1929 volume," the report said.

"The average number of employes increased from 225,572 in 1933 to 259,192 in 1935, or 15 per cent. At the same time, total payrolls for the retail stores increased 26 per cent up to $271,385,000 last year. Full-time payrolls increased 30 per cent, partly offset by a 15 per cent decrease in part-time payrolls.

"In California, the largest employment is shown by eating and drinking places, with a total of 51,152 full-time and part-time employes.

LIQUOR SALES IN STATE SHOW GAINS DURING MONTH OF SEPTEMBER

Sacramento, Oct. 22.—(UP)—Liquor sales in California, estimated on the basis of tax stamp distribution, increased so heavily during September that the state disposed of $614,426 worth of stamps that month, compared with $578,952 in August and $597,636 in July.

As usual the sale of pints led that of all other sized containers, with half pints second and quarts third.

There were enough pints purchased to label 1,932,840 pints, 1'744,537 half pints, 1,059,415 quarts, 716,816 "mickeys", 598,075 fifths, 12,409 gallons and 4,193 half gallons of hard liquor.

Total revenue received from the sale of liquor tax stamps during the first quarter of the fiscal year was $1,791,014.

Is your electric bill higher than it used to be?
And do you still think of it as "a light bill"?
That's what it was once. Now lights are only a part of it.
Now it includes a few cents for the
RADIO
PERCOLATOR
TOASTER
VACUUM SWEEPER
HAND IRON
WASHING MACHINE
Maybe it includes an electric refrigerator. Then you have no bill for ice.
Or a range—and you have no bill for other fuel.
Electricity is Your Home's Biggest Bargain.

SAD iron days became glad iron days when the sleek and shiny electric iron came into women's hands. Perhaps in your home it was the first electric servant you put to use. Right then your electric bill became more than a light bill.

Now for just a few pennies a day, about the price of a package of cigarettes, or a magazine or a piece of pie, electricity gives your home many services besides lighting. It "perks" coffee, makes ice, beats batter, crisps toast, curls hair, sweeps rugs, runs electric clocks and radios . . . well, you can probably add more to this list.

Really, now, isn't electricity making life a lot easier in your home since the day you first used an electric iron? What else gives you such full value for your money?

This Week At The State Capitol

By MELVIN LORD
United Press Staff Correspondent

SACRAMENTO, Oct. 22.— (UP)— California's credit is good!

State governmental securities have found such a ready market that the interest rate on registered warrants is to be reduced from 4 to 3 per cent, and the rate on warrants issued for relief purposes will be dropped from 3 to 2 per cent, according to State Treasurer Charles G. Johnson.

"The state of California is stronger financially today than it has ever been and the increased revenues, coming as a national result of stimulated business, should enable the state to redeem the registered warrants now outstanding even more rapidly than estimated and gradually wipe out the state's deficit," Johnson said.

It was estimated the interest reduction would save the state $225,000 during the remainder of the fiscal year.

Both state and federal forest officials spent one of the busiest weeks of the year as forest fires spread throughout northern California and threatened a series of communities, especially in the northwest Mother Lode district.

The only hope for cessation was answered when a general rain fell.

A complete investigation of the taking of motion pictures within San Quentin prison by Warner Brothers studio has been ordered by Gov. F. F. Merriam.

The pictures were taken presumably with the approval of the state board of prison directors, but the governor took an angry exception to this "exploitation of California's unfortunates," and ordered the inquiry.

It appeared certain that the incident would not be repeated, and many considered it doubtful if the "shots" ever would appear on the screen.

The Governor is opposed to approval of proposition No. 10 on the general election ballot in November. The proposal, presumably to prevent diversion of gasoline tax funds for other than highway purposes, was opposed by the administration because it assertedly "jeopardizes a large amount of state funds."

Approval of a petition to establish a prorate program for California's olive industry appeared certain but officials indicated that the season was too late to apply a curtailment plan to this year's crop and a delay until the 1937 production would be necessary.

ACTION POSTPONED BY FALLON WATER COMPANY IN TRANSFER OF RIGHS TO TRUCKEE DAM

FALON, NEV., Oct. 22.—Action on proposals for the Sierra Pacific Power company to transfer its rights under the Truckee river stipulation agreement to build regulating pondage on the Truckee river from this site to Boca reservoir was postponed this week by the Fallon irrigation district board "until the next meeting."

Six of the seven directors stood for postponement on the ground the time had not been permitted to study the proposal.

FOREST FIRES THROUGHOUT SUPERIOR CALIFORNIA OUT WITH ASSISTANCE OF RAIN

Sixteen thousand acres of timber and brush were burned in the Forest Hill and Iowa Hill fire which was brought under control Monday with the aid of an all-night rain.

The Tahoe National Forest headquarters at Nevada City reported the first reports that Westville, a little settlement of half a dozen houses, had been burned, were wrong.

Montana Flat, town of several abandoned homes, was burned as was the Sugar Pine ranger station, the McKenzie sawmill and several buildings at the Forbes CCC camp. The Forest Hill fire was started in a sawdust pile at McKinzie sawmill late Thursday night. A strong wind fanned the flames over a 14-mile area, three miles wide.

The fire in the vicinity of Alleghany was also under control Monday. Twenty-five hundred acres of good timber was burned there after a high tension wire blew down near Plumbago mine.

NEW RESIDENTS

Mrs.G. Heffenger and her son, formerly of Los Angeles have arrived in Truckee to make their home. The selection was made after careful inquiries regarding climate and general living conditions here. The newcomers are well pleased with their choice. They have rented one of the Frank Powell houses.

Defender

Henry H. Blood, Democratic governor of Utah, who seeks re-election in the November general election.

RAIN AT TAHOE ENDS DANGERS FROM FIRES

Fifteen.. hundredths of an inch of rain fell in the Tahoe City area last week end to end the fire hazzards and keep unblemished a record of no forest fires this season.

FAMILY CHURN IMPORTANT IN STATE DAIRY INDUSTRY

SACRAMENTO, Oct. 22.—(UP)— The family churn is still an important factor in California's dair industry.

A reort based on the United States census of agriculture and filed with the state department of agriculture, indicates a substantial increase in the butter churned on farms and ranches between the years of 1929-1934.

During this period, the census revealed, the milk production in California dropped off slightly,, with a reduction from 445,530,009 gallons in 1929 to 437,814,636 gallons in 1934.

DEMOCRATS

The future of our party is at stake. President Roosevelt has wrecked the finest platform ever drawn up by the Democratic Party. He has repudiated its pledges and has forgotten its name. He and his advisers boast they are "New Dealers," not Democrats. Roosevelt has abandoned you and your party as lightly as he would like to abandon the Constitution which he swore to revere and uphold. For your party's sake you should

VOTE

to repudiate the wreckers of Democratic principles of government. Wreckers who take their advice from pink-tinged Tugwells, Frankfurters, Dubinskys and Hillmans. Wreckers who advise the President who recently wrote urging a Congressional committee to ignore the Constitution. Wreckers who are taking your money and throwing it recklessly around. Wreckers who, ignoring the platform Roosevelt said he would support 100%

FOR

the doctrines of Stalin which they have embraced have long delayed recovery in this country. Yet from March 4, 1933, to June 30, 1936, the fabulous sum of $25,000,000,000 has been squandered while eleven million are still unemployed. Hundreds of the foremost leaders of the Democratic Party have "taken a walk" in protest. They believe their action shows loyalty to the Democratic Party rather than disloyalty, since they will be voting November 3 for

AMERICA

and its age-enduring institutions and liberty. The Democratic Party will be a thing of the past if Roosevelt and his "New Dealers" are re-elected. You cannot continue to spend $2 for every $1 you take in without soon facing disaster. The future of the Democratic Party may be preserved and rescued from the wreckage only by repudiating those who have repudiated you. Party loyalty demands you defeat the un-American profligates in Washington by voting for Landon and Knox and candidates for Congress who will support these nominees.

C Clarkson, Cecil Seiburn all of Hobart and Ralph Cardinal of Reno. Cards were enjoyed after dinner.

The Naturalness of Happiness

THE desire for complete happiness is deep-rooted, happiness being one of humanity's greatest needs. Regardless of race or class or creed, mortals unite in hoping that somewhere, some day, perfect happiness will be reached. The history of mankind records what strange means the human family has resorted to in the attempt to satisfy this need, and history also shows how incomplete the results have been. Probably this is mainly due to the way in which the search was undertaken, for it is of no use to look for something where it cannot be found, and far too often selfish motives and an entire disregard of the Golden Rule have been behind this search for happiness. . . .

Jesus pointed to the virtues essential to blessedness or true happiness when he gave his followers the Beatitudes in the Sermon on the Mount (Matthew 5:1-12). No one has ever met with more opposition than our Master did, and yet he was able to say to his disciples at a time when the antagonism of the world seemed to be most acute (John 15:11), "These things have I spoken unto you, that my joy might remain in you, and that your joy might be full." Jesus was in no danger of losing his joy, because he knew it was born of God, that is, it had its basis in divine Principle. That which comes from God, good, and which is held by an individual as a spiritual possession, can never be wrested from him. . . . In proportion as it is accepted that happiness is the result of goodness will happiness be seen to be indestructible and permanent.

As one holds thought constantly throughout the busy day to the source of all goodness, to God, who is Love, true happiness shines in every deed of unselfed love, and opens vistas of happiness which before were obscured.

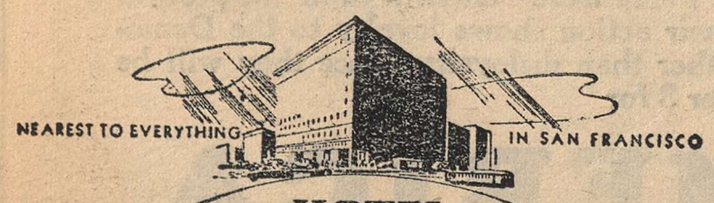

Human experiences of themselves do not hold happiness, and they cannot bring permanent satisfaction to humanity. As one's thought becomes less self-centered and more eager to help others, one's concept of happiness naturally changes. A childish, immature thinker might find great pleasure in a merry-go-round, whereas a more mature thinker would not spend time and thought for his own amusement on such a thing. Childish things may be entirely legitimate at certain stages of mental growth, but a progressive searcher for Truth, with a developing sense of true values, will glady let the false go, that he may lay hold to a greater extent on spiritual ideas, which are forever present awaiting recognition.

Paul did not condemn innocent pleasures, but he saw himself outgrowing them as he gained more of true selfhood. "When I was a child," he wrote to the people of Corinth (I Corinthians 13:11), "I spake as a child, I understood as a child, I thought as a child: but when I became a man, I put away childish things." While a mortal is thinking childish thoughts he will require childish amusements, but as he grows up mentally and spiritually he will demand higher manifestations of good.

Mary Baker Eddy tells us of that which deters mankind from laying hold of this natural right—happiness—in "Miscellaneous Writings" (p. 118), where she writes, "Self-ignorance, self-will, self-righteousness, lust, covetousness, envy, revenge, are foes to grace, peace, and progress; they must be met manfully and overcome, or they will uproot all happiness." Sometimes it is well to take a mental inventory and courageously review the situation if we are not manifesting the joy and happiness which should so naturally be felt in everyday life. In the passage quoted we have a good measuring line with which to find out what it is that may be preventing our fullness of joy.

Happiness is not dependent on money, persons, or circumstances; it is born of God. True happiness is seeing good, feeling good, rejoicing in good, exalting good, and using it in dealing with others. Those who are unceasingly rejoicing could bring forth nothing but joy; and how natural this happiness seems to be! . . .

TAHOE MAN PROVES HIMSELF GOOD SPORT WITH RARE TACT

TAHOE CITY, Oct. 22.— Ray Holland of the Tahoe Mercantile staff last Friday proved himself not only a real philanthropist but one with rare good 'scents' and tact.

Retiring at his customary hour he had slept but a short time when on stilly night air came queer sounds... a pronounced rapping at regular intervals.

He arose and went to the door ... no one was there! He called out ... there was no answer! Deciding he could do little in the dark, he went back to bed and slept until morning although the noise continued at the regular interval.

During breakfast the rapping was started again and a hasty tour of inspection revealed the source of the disturbance.

A pretty black kitten with a very atractive double white line down its back, having a yen for sour pickles, had thrust its head into a discarded pickle bottle and could not get it out again. There he stood bumping his head against the house trying to get free, but in vain.

Holland, properly sympathetic and thoroughly eager to assist, was fearful, however, least his good intention be misinterpreted by the unfortunate skunk, so taking no unnecessary chances he sought the services of young Junior Henry. This young man proceeded with his .22 rifle to shoot the cumberson glass bonnet from the nocturnal visitor's head, leaving him free to scamper home, a sadder but wiser adventurer.

Duly grateful for his timely release he departed, laughing no doubt up his sleeve as he meditated upon the 'bad scent' which probably saved his life.

Nor had he spent a 'scent' to get free.

PRANKSTERS WARNED TO BE CAREFUL WITH HALLOWE'EN TRICKS

Hallowe'en, the night when the mischievious and malicious spectors are alleged by tradition to be wandering about to circumvent the coming of the good spirits who predominate on All-Saints' Day, November 1, is almost upon us and in common with other communities, Truckee has the problem of allowing the young people wholesome fun until a reasonable hour without injury to themselves or others or the destruction property.

In many homes there are people who are easily disturbed because of the state of their health and such places should be avoided scrupulously by young folks who have been taught to consider the rights of others. There is no excuse for the destruction of property, either. The results would not bring any lasting joy to the participants and might bring them afoul of the law.

It is plainly the duty of the parent the teachers and others in authority to help the children observe the ancient day, or night, with wholesome merriment, but not allow willful destructiveness.

WYETHIA CLUB WILL GIVE PUBLIC CARD PARTY SOON

The Wyethia Club will hold a public card party on Monday evening at 8 o'clock. Tokens for high and low scores will be given and refreshments will be served at the conclusion of the games.

Mrs. A. Mahne and Mrs. A. D. Polyanich will head the committee on entertainment while Mrs. Robert Tonini, Mrs. Edith Fay and Mrs. R. P. Bick will constitute the committee for the serving of refreshments.

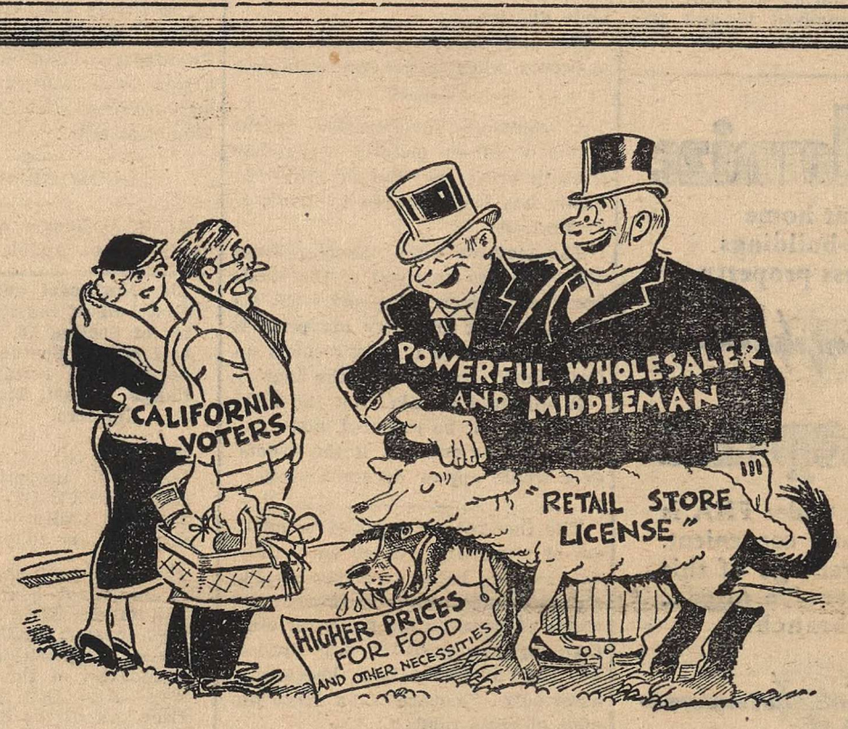

SCHOOL ACTIVITIES

John D. Heffenger, formerly a student at Quincy High, has enrolled as a sophomore at the local high school.

The long-delayed football game between the M. L. U. H. S. boys and a Tahoe team has been definitely set to be played at Tahoe City Sunday.

The local boys have been working all last week leveling off the football field for use next year. After the leveling is completed the boys plan to plant Bermuda grass to make a turf.

The new school constitution will go into effect next week with a dozen new officers going into power. These officers will be elected at a general assembly tomorrow.

IT'S A NEW TAX ON YOUR FOOD

..and other necessities

They call Proposition #22 a "Retail Store License" to hide the fact that *you* will pay it

IT IS CLEVERLY NAMED to look like something else. But *no one denies that its main purpose is to raise retail prices* —to increase the cost of living for Californians who can least afford it!

When read carelessly, Proposition #22 sounds innocent enough. It taxes an individual store $1.00 a year for the right to do business. But it taxes *chain stores $500.00 for each store over nine.*

But, says the U. S. Federal Trade Commission:

"If the ability to undersell, based on greater efficiency or on elimination of credit and delivery cost, is destroyed by taxation, it is the consuming public which will really pay the tax and not the chain."

For chain stores operate on a small profit. They eliminate middlemen's profits and unnecessary in-between expense. The savings they make by operating efficiently are passed on to you in prices 10% below the average. The Harvard (University) School of Business Research states these to be the facts.

The tax is greater than the profit of four out of five chain stores. Thus some of them will be forced to close - *allowing their competitors to raise prices.*

Surviving chains will be forced to raise their prices to pay the "license."

In either case–*you* will foot the bill.

Admittedly *not for revenue purposes,* the tax is a cleverly masked attempt to subsidize the middleman and wasteful business methods–*at your expense.*

If you think that chain store competition helps to keep *all* prices reasonable–if you believe that taxes are high enough already, particularly on foods –*vote NO and keep prices low.*

For no matter what they call it...no matter how they try to conceal it...*22 is a tax on you–VOTE NO!*

22 IS A TAX ON YOU—VOTE NO!

INCREASED TRAVEL IN STATE REPORTED

Sacramento, Oct. 22.—(UP)—Increased travel to California by motorists of other states was reported in statistics compiled by the state department of motor vehicles.

During July a total of 119,096 nonresident permits were issued by the department. In the corresponding month a year ago the number was 89,050.

More than 80 per cent of the permits were issued at the eight border checking stations maintained by the department.

ANNEX OF CLUB NEARS COMPLETION

Members of the Sierra Club report that an annex to their clubhouse, which is located this side of Norden, is nearing completion and that the capacity will be doubled. Heretofore 60 members could be accomodated but the increased demand for housing facilities during the winter season led them to decide on the erection of the annex, which yill also include a store room for skiis and other suow sport equipment.

New ski trails have been marked from the clubhouse to nearby points, the most hazardous starting from Donner peak and extending to the lake.

There are more than 2000 members of the club in all parts of the state.
